use this year. Friends have loved my sachets and lip balm, so I thought I'd take it one step further and do up a Christmas bag for everyone this year! This book has some ideas that I hadn't thought of before and it has some very plans to follow. I'm really looking forward to getting my hands into it after the herbs are all dried! Great little book!

Lots of recipes - from aromatherapy to the kitchen. It gives you plenty of ideas on how to use your lavender as inexpensive gifts and useful items for the home. Some of the food recipes sound a bit weird, but I will try them!

This very small little paperback is ok. There are several recipes that I might try, but I was surprised at how small the book is. I think I read the entire book in about twenty minutes.
