This has become one of my new favorite reference books for bag embellishmentsBy Marie McCThis has become one of my new favorite reference books for bag embellishments, along with Linda's other book "The Perfect Bag." The craftsmanship is incredible, and the embellishments are stunning. I've never seen anything like Linda's creations anywhere before. I'm so amazed and inspired! There are also some excellent tips on techniques that I'd never come across. I love this book!0 of 0 people found the following review helpful.

Inspirational book

This book inspired me to start not only making bags but also selling them and I have become very successful. I sell to friends and acquaintances and I also sell them in markets. This book has been a guide, and Linda McGhee made the bag-making mechanism so simple, and consequently I decided to try it. The first bag I ever made was of rectangular shape with zip closure and from a simple cotton material. I was asked by a friend to make this bag from a skirt that she didn't wear anymore. She was very pleased with the outcome. Then I decided to make another bag from a cotton print and with the insertion of red soft leather and another friend of mine saw it and asked me if I could sell it to her. At that point I was impressed. I was surprised that she like it so much. It is true that I have some knowledge about making clothes, but I had never thought about making bags. At present I am more successful with bags than clothes. So, I would highly reccomend this book because thanks to Linda McGhee, I am currently making all kinds of bags and I am always improving.

Great book, Linda is a very good instructor, easy to follow directions.

This text teaches the basics of bag construction, straps, pockets and decorative embellishment, including applique and trims, pockets and piping. The book shows dozens of bags made by the author, and includes projects for making handbags, a zipped cosmetic bag, and a lingerie and sweater bag.
