**Nancy J. Martin, Sue Saltkill : Linens and Old Lace** before purchasing it in order to gage whether or not it would be worth my time, and all praised Linens and Old Lace:

This lovely book has 64 pages, 15 color pages, and all the original full size patterns are included. "Linens and Old Lace contains many ideas for the use and display of old needlework, as well as 82 sewing projects which incororate these treasures. Many of the projects in this book are adaptable to more than one piece of needlework. For instance, a crocheted beadsread can be substituted for a dresser scarf in the Bound Edge Vest. Similar creative options are suggested for many projects. Let these ideas be a starting point for your own creative use of treasures from the trunk."
