Craftworld : Lovable Bears (Country Crafts) before purchasing it in order to gage whether or not it would be worth my time, and all praised Lovable Bears (Country Crafts):

1 of 1 people found the following review helpful. Really fun book By L. Wright This book was purchased with a bunch of other books in a grab bag. I wasn't sure what it was until my 5 year old son kept bugging me to read the "make a bear book." I was surprised and pleased to find that it was indeed a book on making bears. The directions were easy to follow and fun. My 5 year old picked out the fur and eyes and then stuffed his bear. It turned out adorable and I will be making more for holiday gifts. One suggestion I have is to buy "doll" joints at the craft store instead of all the hardware the book lists. I found this to be very easy and practical. I would recommend this book to anyone who loves crafts. I was able to sew the beginning bear up completely by hand from cutting out the pattern to the finished product in 10 hrs. It was a blast and my son loves his keepsake and the time we spent making it was something I will treasure!

I am buying this copy for a friend at work who saw the 2nd bear I made and fell in love. She wanted a copy so I am going to surprise her with this one.Lovable Bears (Country Crafts)
